Subject: Silver Sands

Sirs:

I am writing in a private capacity and as current President of the New Haven Bird Club.

Silver Sands is a unique park which has unique habitat for many avian species, both resident and migratory, which is essential to their survival. We implore you to reconsider any decision which would compromise the crucial environmental habitat.

The thought of robbing crucial habitat to provide a parking lot is intolerable!

Bill Batsford

President, New Haven Bird Club

Resident, New Haven
